

Daun Miller-Barr, Accounting and Human Resources

Daun has been with The Learning Source for six years bringing over thirty years' experience in clerical and administrative work. She has fifteen years of employment with Jefferson County schools as a paraprofessional which was an enriching and valuable experience that only strengthened her belief of the importance of education. Daun has a special place for our students as an adult learner herself, as she currently attends classes as a Red Rocks Community College student working towards a bookkeeping certificate. A hockey mom by trade, she has a strong belief in home and family with a husband, two adult sons, two Saint Bernard's and a yard full of chickens. Daun can be reached by email at Daun@thelearningsource.org
